## DETAILED ACTION

### *Election/Restrictions*

1. Claim 67 is allowable. The restriction requirement, as set forth in the Office action mailed on 6/18/2008, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 67, directed to a removing method is no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 15-34, directed to a removing method with a specific substrate is withdrawn from consideration because it has limitations not described by the composition.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Abe Rosner on 6/30/2010.

The application has been amended as follows:

Please delete withdrawn claims 15-34.

In claim 42, line 5, after the phrase "(v)" please insert –organic—

In claim 49, please rewrite this claim to read –A removing solution according to claim 42, wherein the organic acid is a carboxylic acid.—

### **REASONS FOR ALLOWANCE**

2. Claims 1-6, 8-12, 14, 35-42, 44, 45, 47-67 are found to be allowable.
3. The following is an examiner's statement of reasons for allowance:

Art Unit: 1796

4. The applicant's amendments and the examiners amendment have put the instant claims in condition for allowance.

5. First, the applicant's independent claims 1 uses the transitional phrase "consisting of" which excludes any additional components. The applicant's claim 1 further requires specific amounts of hydrogen fluoride, organic acids and/or organic solvents with the organic solvents being defined by a Markush group of permissible solvents. The prior art fails to teach the combination of the hydrofluoric acid with either the organic acid or organic solvent in the weight percents required by the claims and with the exclusion of any additional ingredients.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
